

Please enforce the no-call list...these people like myself do not want to be called by telemarketers nor do we wish to purchase anything over the phone. It would actually save the telemarketers \$ by not calling people who wish not to be bothered and would hang up any way without purchasing anything...so not only would it save the marketing co \$ on phone but also on employee wasted call time. I do not wish to be called by any telemarketer...and I get really upset when they argue with me as to why I do not wish to do what they want..I end up hanging up on 99% of them. I do the same at the place of my employment as now they seem to be calling businesses more now. Please keep and enforce the no call list!
Thank you,
Michele Brown
